ERC CASE NO. 2022-017 RC

MANILA ELECTRIC  
COMPANY (MERALCO) AND  
SOUTH PREMIERE POWER  
CORP. (SPPC),

*Applicants.*

X-----X

Promulgated:  
April 18, 2022

**ORDER**

On 21 March 2022, Manila Electric Company (MERALCO) and South Premiere Power Corp. (SPPC) filed a *Joint Application* dated 09 February 2022 for the approval of their Power Supply Agreement (PSA), with prayer for provisional authority/and or interim relief and motion for confidential treatment of information.

The pertinent allegations of the said *Joint Application* are hereunder quoted as follows:

1. Applicant MERALCO is a private corporation existing under the laws of the Republic of the Philippines, with principal office located at Lopez Building, Ortigas Avenue, Brgy. Ugong, Pasig City. It may be served with notices and other processes of this Honorable Commission through its counsel at the address indicated herein.
2. MERALCO has a legislative franchise to operate and maintain a distribution system in the cities/municipalities of Metro

Manila, Bulacan, Cavite and Rizal and certain cities/municipalities/barangays in Batangas, Laguna, Quezon and Pampanga, pursuant to Republic Act No. 9209, and is authorized to charge all its customers for their electric consumption at the rates approved by the Honorable Commission.

3. Applicant SPPC is a private corporation duly organized and existing under the laws of the Philippines, with address at 5th Floor, C5 Office Building Complex, #100 E. Rodriguez Jr. Ave., C5 Road, Bo. Ugong, Pasig City 1604 Metro Manila. It may be served with notices and other processes of this Honorable Commission through its counsel at the address indicated herein.
4. SPPC manages and controls the output of the 1,200 MW combined-cycle power generating facility fired on natural gas, located in Barangay Ilijan, Batangas on the island of Luzon ("**Plant**"), pursuant to, and in accordance with the IPPA Agreement executed between the Power Supplier and Power Sector Assets and Liabilities Management Corporation ("**PSALM**"), with the conformity of the National Power Corporation ("**NPC**").
5. In light of the anticipated thinning electricity operating margins leading up to the May 2022 elections, especially with upcoming simultaneous scheduled maintenance and possible forced outages of various power plants, MERALCO foresees a peaking capacity deficit in its portfolio from 26 February 2022 until 25 July 2022 for 260 MW, of which 170 MW is secured through this PSA.
6. Thus, in order to ensure continuous and reliable electricity for MERALCO's customers, there is a need for MERALCO to source additional peaking capacity through bilateral power supply contracts.
7. Under Section 45(b) of Republic Act No. 9136 (EPIRA), it is provided that "*Distribution Utilities may enter into bilateral power supply contracts subject to review by the ERC xxx.*"
8. Accordingly, following the conduct of a Competitive Selection Process ("**CSP**") for the procurement of 170 MW (net) peaking capacity, on 4 February 2022, MERALCO executed a Power Supply Agreement with SPPC ("**MERALCO-SPPC PSA**"), for the purchase of electric energy corresponding to 170 MW. The conduct of CSP proceeded as follows:
  - 8.1. On 23 December 2021, MERALCO caused the first publication of an Invitation to Bid ("**Invitation**"), which contained the basic terms of reference, indicating a summary of the process and timelines of the CSP, and inviting power generation companies to submit an Expression of Interest and Confidentiality Undertaking on or before the deadline set out in said Invitation. At the same time, MERALCO caused the

posting thereof on its website and the DOE's CSP e-Portal, as well as posting in a conspicuous place of its principal office.

- 8.2. On 2 February 2022, the bidders submitted their compliance with the Bid Requirements. Thereafter, the respective submissions of the bidders were opened by the Third-Party Bids and Awards Committee ("TPBAC"). SPPC's bid was declared as the best bid on even date.
  - 8.3. On 3 February 2022, after confirming through conduct of a post-qualification evaluation that its proposed energy price was found to be the best bid, SPPC was declared by the TPBAC as the winning power supplier.
  - 8.4. A copy of the TPBAC Summary-Report regarding the conduct of the CSP is attached as part of ANNEX "C".
9. The MERALCO-SPPC PSA, a copy of which is attached as ANNEX "D" and made an integral part hereof, contains the following salient features:

**"2.2. Term of Agreement**

2.2.1. *Subject to Article 3, this Agreement shall become effective on the Execution Date.*

2.2.2. *The term of this Agreement the [sic] (the "Term") shall commence on the Operations Effective Date, and shall expire on July 25, 2022, unless terminated earlier in accordance with the terms of this Agreement or extended by the application of Section 2.2.3.*

2.2.3. *The Term may be renewed for an additional period of up to five (5) months under the same terms and conditions, at the option of Meralco, by giving prior written notice to Power Supplier at least thirty (30) Days prior to the end of the Term.*

xxx

**3.2. Operations Effective Date**

*The obligations of Power Supplier with respect to the Contract Capacity and Associated Energy shall commence on February 26, 2022 (the "Operations Effective Date"); provided that the conditions set out in Section 3.2.1 have been satisfied.*

**Article 4. Sale and Purchase of Contract Capacity and Associated Energy**

**4.1. Supply of Power**

*Subject to the terms and conditions of this Agreement, from the Operations Effective Date until the expiration of the Term or earlier termination of this Agreement:*

- (a) *Power Supplier shall make Available to Meralco the Contract Capacity to be sourced from the Plant, the WESM or any other source, and deliver and sell to Meralco the Associated Energy, at the Contract Price determined in accordance with Appendix C;*
- (b) *Meralco shall purchase from Power Supplier to the extent of Meralco's relevant day-ahead nominations, the*

Associated Energy, at the Contract Price determined in accordance with Appendix C.

- 4.2. **Contract Price**  
The Contract Price shall depend on the applicable load factor for the relevant Billing Period, as computed and shown in Schedule 1 of Appendix C, subject to twelve percent (12%) value-added tax (VAT); provided, that the Benefits to Host Communities Charges, if any, shall not form part of, and is excluded from the computation of the Contract Price. For the avoidance of doubt, all taxes pertaining to Power Supplier, including but not limited to the Benefits to Host Communities Charges, shall be shouldered by, and be for the sole account of, Power Supplier. Any violation of this Section 4.2 shall constitute a Power Supplier Event of Default as provided for under Section 14.1.

xxx

**Article 7. Outages**

- 7.1. Power Supplier shall not be entitled to any Outage during the Term of this Agreement. For clarity, this means that notwithstanding Outage of the Plant, Power Supplier shall make available the Contract Capacity and Associated Energy to Meralco.
- 7.2. In case Power Supplier fails to deliver the Contract Capacity and Associated Energy to Meralco due to unavailability of supply from its Plant, WESM, and any other source, Power Supplier shall pay a fine equivalent to Nine Hundred Eight Philippine Peso (PhP908) multiplied by each MWh during a Day, which shall be used to reduce the generation charge to the consumers. For the avoidance of doubt, in case Power Supplier fails or refuses to supply Contract Capacity and Associated Energy despite availability thereof, then Section 14.3.1. shall apply.

**Article 8. Reduction in Contract Capacity and Associated Energy**

- 8.1. Subject to the provisions of Section 8.2., Meralco shall, from time to time, be entitled to a reduction in the Contract Capacity and Associated Energy (the "**Reduction in Contract Capacity and Associated Energy**") equivalent to the reduction in the demand of its captive customers by reason of the enforcement of Retail Competition and Open Access, the Renewable Energy Law, other Laws and Legal Requirements.
- 8.2. Meralco shall give a written notice to Power Supplier of such reduction at least five (5) Days prior to the first Day of the next Billing Period. Upon receipt by Power Supplier of such written notice, Meralco shall cease to have any rights and obligations under this Agreement in respect of such Reduction in Contract Capacity and Associated Energy.

xxx

**12.2 ERC Approval**

12.2.1. Upon receipt of the ERC Approval, Meralco shall provide a copy of such ERC Approval to Power Supplier. Power Supplier shall have ten (10) Days from the date of receipt from Meralco of such ERC Approval to notify Meralco in writing that: (i) it accepts such ERC Approval or (ii) it does not accept the ERC Approval, stating the grounds for non-acceptance.

12.2.2. In case of Power Supplier's non-acceptance, it has the following options:

- (i) *Power Supplier shall be free to file a motion for reconsideration with the ERC. In case Power Supplier decides to file a motion for reconsideration, and pending resolution thereof by the ERC, the Parties shall implement the ERC Approval subject to any adjustment or amendment that the ERC may direct. Any order on a motion for reconsideration shall be treated as an ERC Approval for purposes of the processes under Section 12.2. If the ERC Approval requires any amendment to or modification of any provision of this Agreement that is not acceptable to either Party, acting reasonably, then the Parties shall cooperate in good faith to resolve the required amendment, including seeking a reconsideration by the ERC. If the Parties are unable to agree on the required amendment within thirty (30) Days from receipt of the ERC Approval resolving the motion for reconsideration, or if the motion for reconsideration is not resolved by the ERC within one hundred twenty (120) days after its filing, or the amendment is disapproved by the ERC, or approved by the ERC but still contains any material term or condition that is not acceptable to either Party, acting reasonably, then either Party may terminate this Agreement and the Bid Security shall be returned to Power Supplier.*

*Meralco reserves the right to forfeit the Bid Security in the event that Power Supplier fails to comply with any order or directive of the ERC or to provide any document required by the ERC, resulting in non-performance of its obligations under this Agreement.*

- (ii) *If Power Supplier does not file a motion for reconsideration with the ERC and/or notifies Meralco that it intends to terminate this Agreement, Meralco shall have the right to forfeit the Bid Security to the extent of twenty-five percent (25%) thereof.*

*12.2.3. If the ERC Approval requires any portion of the sum that has been paid by Meralco to Power Supplier to be adjusted, Power Supplier shall make the necessary adjustments in accordance with the direction of the ERC. In the event of any disallowance in the Contract Price, the same shall be for the account of Power Supplier.*

*12.2.4. Following (i) a written notice of acceptance from Power Supplier with respect to the ERC Approval (including upon reconsideration under Section 12.2.2. above), or (ii) the lapse of the period referred to in Section 12.2.1. without Power Supplier communicating its acceptance or non-acceptance in writing, the acceptance date shall be considered as having occurred on the date of the written notice of acceptance or on the last Day of such period, as applicable (the "Acceptance Date"), provided, in each case, that Meralco has not filed any motion for reconsideration or appeal subsequent to Power Supplier's acceptance of such ERC Approval and the Longstop Date has not occurred. For clarity, in case of (ii), upon lapse of the period, this Agreement will be implemented in accordance with the ERC Approval.*

xxx

**13.2 Instance of Force Majeure**

*Subject to the provisions of Section 13.1., Events of Force Majeure shall include, but not be limited to:*

- (a) acts of war or the public enemy whether war is declared or not;
- (b) public disorders, civil disturbance, insurrection, rebellion, acts or campaigns of terrorism, piracy, embargo, sabotage, blockade, revolution, riots or violent demonstrations;
- (c) explosions, fires, earthquakes, lightning, typhoon, tsunami, flood, cyclone, volcanic eruptions, landslide or other natural disasters, acts of God, epidemic, quarantine or plague;
- (d) any action or aggregation of actions or failure to act by any Governmental Instrumentality, including expropriation, requisition, confiscation, nationalization or other compulsory acquisition;
- (e) strikes, lockouts or other collective or industrial action by workers or employees other than non-manual personnel (in each instance, occurring in the Philippines); provided that any Party that seeks to invoke such a strike, lockout or other collective or industrial action as an Event of Force of Majeure must first utilize all reasonable efforts to continue performance of its obligations hereunder; and
- (f) any Transmission Failure that prevents delivery by Power Supplier, or acceptance by Meralco, of Contract Capacity and Associated Energy. In case of disagreement as to the existence of a Transmission Failure, the Parties shall secure the necessary certification or advisory from the ERC, WESM or NGCP, which certification or advisory shall bind both Parties;

*For clarity, Power Supplier shall not be allowed to claim Force Majeure under Article 13 in case there is supply available from the WESM or any other source.*

xxx

**13.5. Event Not Excused**

*Lack or unavailability of supply in itself shall not be considered as an Event of Force Majeure, unless the circumstances in Section 13.1. concur."*

10. Based on the foregoing, and given a certain set of assumptions, the effective rate under the MERALCO-SPPC PSA is **PhP 6.4398 per kWh (at plant gate, VAT inclusive)**, as shown in the **RATE IMPACT ANALYSIS** below:

SPPC IPSA Rate Impact at 45 % pcf  
(March 2022 to July 2022)

BILLING COMPONENT	UNIT	BASE RATES <sup>[a]</sup>	BILLING DETERMINANT <sup>[b]</sup>		AMOUNT (PHP)

Excess Energy Price for energy greater than MEOT PCF up to 45% pcf	(Php/kWh)	4.2068	128,520,000	(kWh)	540,651,510.00
Total Energy Payment (VAT exclusive)	(Php/kWh)	5.7498	275,400,000	(kWh)	1,583,499,510.00

Effective Rate at Plant Gate (VAT Inclusive)	(Php/kWh)				6.4398
WESM Line Rental Rate <sup>[d]</sup>	(Php/kWh)				0.1000
Delivered Rate (VAT Inclusive) <sup>[d]</sup>	(Php/kWh)				6.5398

Effective Cost if sourced from WESM <sup>[e]</sup>	(Php/kWh)	7.5414
Increase / (Decrease) over WESM	(Php/kWh)	(1.0016)
Meralco Captive Energy Demand <sup>[f]</sup>	(kWh)	14,948,927,438
Increase / (Decrease) in Generation Cost	(Php)	(275,828,972.42)
Increase / (Decrease) in Generation Cost	(Php/kWh)	(0.0185)

Assumptions:

- <sup>[a]</sup> Contract Price (VAT exclusive) and Excess Energy Price (VAT exclusive) as set forth and computed in Appendix C of the PSA.
- <sup>[b]</sup> Energy billing determinant for Mar 2022 to Jul 2022 based on 45% pcf with respect to the Contract Capacity.
- <sup>[c]</sup> Line Rental rate for South Premiere Power Corp. is based on the maximum allowable value as stated in the PSA.
- <sup>[d]</sup> Delivered Rate (VAT inclusive) will include AS Cost Recovery rate once imposed under existing rule or regulation. AS Cost Recovery rate for SPPC shall be based on the lower between actual rate and cap of PhP0.28/kWh.
- <sup>[e]</sup> Cost if equivalent volume of South Premiere Power Corp. was sourced from WESM and priced using forecasted average WESM prices for peak hours for the period Mar 2022 to Jul 2022, inclusive of 6% VAT.
- <sup>[f]</sup> Forecasted Meralco Captive Energy for Mar 2022 to July 2022 based on the latest Power Supply Procurement Plan as submitted to DOE.

11. MERALCO notes that the delivered rate of **6.5398 per kWh (VAT and line rental inclusive)** is **lower** by about PhP 1.0016 per kWh than the effective cost of PhP 7.5414 per kWh (VAT and line rental inclusive), if the equivalent capacity under the MERALCO-SPPC PSA is to be sourced from the WESM. In fact, by sourcing the capacity through the MERALCO-SPPC PSA, MERALCO’s average blended generation rate will be reduced by about PhP 0.0185 per kWh (as seen in the **RATE IMPACT ANALYSIS** above) resulting in savings to consumers of about PhP 275.8 million.
12. In support of this Joint Application and the prayer for issuance of Provisional Authority or Interim Relief, the Judicial Affidavit of **ENGR. WILHELMINA PLETO MANALAYSAY**, MERALCO’s Energy Sourcing Engineer is attached as **ANNEX “E”** and made an integral part hereof.

#### ALLEGATIONS IN SUPPORT OF THE PRAYER FOR THE ISSUANCE OF PROVISIONAL AUTHORITY OR INTERIM RELIEF

14. It bears emphasis that the MERALCO-SPPC PSA has a very competitive contract price for peaking capacity supply. In fact, such contract price is even lower than the previous offer received by MERALCO for a peaking plant. Other features of this PSA that shall clearly benefit customers include no outage allowance, and a guaranteed 100% availability of supply (for twelve [12] hours daily covering peak hours of MERALCO) due to the financial-type nature of this PSA, which is crucial in the upcoming summer season of 2022.
15. The MERALCO-SPPC PSA capacity is crucial for MERALCO’s supply requirement because of the anticipated thinning electricity operating margins leading up to the May 2022 elections, especially with upcoming simultaneous scheduled maintenance and possible forced outages of power plants, which will ultimately result in the exposure of MERALCO’s customers to the highly volatile prices of the WESM.

16. In fact, as early as January of this year, the Luzon Grid was placed on Yellow Alert on several occasions already despite cooler weather. The situation is further exacerbated by Indonesia's recent decision to ban coal supply exports in order to protect its own domestic supply, thus, putting into peril critical fuel inventory of coal-fired power plants in the Philippines. On 18 January 2022, the National Grid Corporation of the Philippines (NGCP) already issued a warning to the public that "thin operating margins (power in excess of demand, which is used to manage and balance the grid) is forecasted in the Luzon grid from April to June 2022 due to increase in demand during the summer, which includes the critical election period."<sup>1</sup>
17. The MERALCO-SPPC PSA can help shield MERALCO's customers from the looming supply deficiency because the supply availability under the MERALCO-SPPC PSA is guaranteed 100% (for twelve [12] hours daily covering Meralco's peak hours) by SPPC and no outage allowance is provided therein.
18. Rule 14 of the ERC Revised Rules of Practice and Procedure ("ERC's RRPP") expressly provides for this Honorable Commission's authority to issue a provisional authority or grant interim relief to immediately implement the MERALCO-SPPC PSA. Such issuance or grant will not only avert the situation where MERALCO would be constrained to source its capacity deficit from the WESM, thereby exposing its customers to volatile prices, but more importantly, the immediate implementation of the MERALCO-SPPC PSA would redound to the best interest of electric power consumers since aside from the very competitive rate, the supply availability under the MERALCO-SPPC PSA is guaranteed 100% by SPPC and no outage allowance is provided therein.

**ALLEGATIONS IN SUPPORT OF THE MOTION FOR  
CONFIDENTIAL TREATMENT OF INFORMATION**

19. Under Rule 4 of the ERC's RRPP, a party to any proceeding before the Honorable Commission may request that certain information not be disclosed and be treated as confidential, by describing with particularity the information to be treated as confidential, specifying the ground for the claim of confidential treatment of the information and, if applicable, specifying the period during which the information must not be disclosed.
20. With respect to the documents marked and attached as **ANNEXES K-6 and series**, MERALCO respectfully moves that these were requested by its TPBAC to be treated as confidential as it involves the financial proposals submitted

---

<sup>1</sup> <https://newsinfo.inquirer.net/1542057/ngcp-warns-of-thin-power-supply-in-luzon-grid-as-higher-demand-likely-during-dry-season>

by SPPC and the non-winning bidders of the CSP that was conducted (as discussed above). The said financial proposals include certain confidential and proprietary data and information that may be used by other generation companies in designing their offers/tariff structure/rate design in a manner that will undermine competition.

21. With respect to the documents marked and attached as **ANNEXES "X and Series"**, SPPC respectfully moves that these be treated as confidential and not be disclosed to any party for the reason that these contain non-public, proprietary information, data and calculations involving the investments, financial calculations, and business operations of SPPC. The data and information contained therein are part of the overall formula and process in arriving at the competitive rates of SPPC. These formula and process are specifically developed for the use of SPPC and are treated as trade secrets. If the information contained in these documents are unduly disclosed, it will seriously prejudice the competitiveness of SPPC. These documents are neither generally available to the public nor already in the possession of the Honorable Commission on a non-confidential basis.
22. In the case of *Air Philippines Corporation vs. Pennswell Inc.*,<sup>2</sup> the Supreme Court defined "trade secret" as follows:

**"A trade secret is defined as a plan or process, tool, mechanism or compound known only to its owner and those of his employees to whom it is necessary to confide it. The definition also extends to a secret formula or process not patented, but known only to certain individuals using it in compounding some article of trade having commercial value. A trade secret may consist of any formula, pattern, device, or compilation of information that (1) is used in one's business; and (2) gives the employer an opportunity to obtain advantage over competitors who do not possess the information. Generally, a trade secret is a process or device intended for continuous operation of the business, for example, a machine or formula, but can be a price list or catalogue or specialized customer list. It is indubitable that trade secrets constitute proprietary rights."**  
(Emphasis supplied.)

23. The protection of trade secrets is likewise recognized by the Honorable Commission in its Decision in ERC Case No. 2015-111 RC:

---

<sup>2</sup> G. R. No. 172835, 13 December 2007.

“In the case of PNOC RC, the documents sought to be protected from disclosure contains formula and pricing structures used in arriving at their proposed tariff. The prices cited in the documents were components of the proposed tariff. In fact, all three (3) documents were used by the Commission in evaluating the reasonableness of the proposed rate. In electric power industry [where] prices is a major consideration in selecting one’s supplier, it is apparent that the assumption used in arriving at one’s proposed tariff is considered a competitive leverage by one player against its competitors.

Thus, the Commission resolved to treat the said documents confidential and may not be publicly disclosed.<sup>3</sup>

24. MERALCO and SPPC hereby submit one (1) copy of each of the foregoing confidential documents in sealed envelopes, with the envelopes and each page of the documents marked “Confidential.”
25. The interest of the consumers of MERALCO is sufficiently protected by the review and evaluation of the rates under the PSA by the Honorable Commission, without the need to disclose the contents of **ANNEXES K-6 and series and “X and series.”** The reasonableness and transparency of the prices of electricity is to be assured by the Honorable Commission through its own review and verification of the foregoing documents sought to be afforded confidential treatment in the evaluation and handling thereof. One copy each of the mentioned annexes will be placed in a sealed envelope, which will be tagged as “Confidential”, and will be submitted as integral parts hereof.
26. Lastly and corollary to the foregoing, MERALCO and SPPC would like to implore the discerning wisdom of the Honorable Commission to include in its issuance for this purpose the **“procedures for handling or returning the confidential information, as may be appropriate, upon the close of the proceedings or at the end of the period.”**<sup>4</sup>
27. This is guided by the fact that MERALCO and SPPC will seek for the return of these sought to be declared confidential annexes after its utilization as evidence in this case and/or at the close of the proceedings hereof, so as to relieve the Honorable Commission of the burden of safekeeping the trade secrets of SPPC enclosed in the subject annexes.
